Welcome!
Vantage Mobility International

The VMI team will work with transit agencies and NEMT providers, bringing expertise and turnkey solutions to help providers select accessible vehicles that are reliable, durable and cost effective. VMI is prepared to assist transportation service providers to pivot successfully and continue delivering essential services in a post-COVID environment.

For more information about VMI and its products, please contact Jason Stempin by phone at 314-396-9322 or by email: jasons@vantagemobility.com.
Ask questions through the Q and A Feature

Any question not answered live will be responded to directly via email
• Will there be any changes to your operational approach as states begin their phased-in return to the “new normal”?
• What questions do you have regarding new safety protocols around cleaning/sanitizing your services? What of these protocols will be particularly challenging for NEMT?
• What innovations have you implemented in your service during COVID? Will they remain in place in the “new normal”?
• How do you plan on addressing the changing demand in the months to come (i.e. impacts of telework)?
• How can CTAA best assist you?
